

Group Classes

Puppy Basics: (6 weeks) So now that you've acquired that new puppy, you're probably finding out that you need some professional help when it comes to housebreaking, mouthing, teething and teaching your puppy the most simple of basic commands that'll get him started on the way to being the dog you've always dreamed of owning. Your puppy will get to play and socialize with other puppies, other people and he'll actually learn to focus on you. All you have to do is spend a little bit of time each day, accentuate the positive and be consistent. Our professional trainers are here to help you reach that goal. Puppy Basics covers potty training, nutrition, bite inhibition, and basic obedience including walking nicely on leash, sit, down, stay, come, and leave it/drop it. (For puppies 10weeks _ 6 months)

Basic Obedience: (6 weeks) This program is for the adolescent or adult dog that needs 'basic training'. Our professional trainers will teach you how to teach your dog sit, down, stay (duration & distance), come, walking nicely on leash, leave it/ drop it and how to politely greet strangers. We'll also show you how to cure those annoying bad habits like jumping, mouthing, nipping barking incessantly and showing anti-social behavior to other dogs. (For dogs over 6 months of age)

Basic Intermediate : (6 weeks) This is where we take Basic I to the next level. The toughest thing for your dog to learn is that commands must be obeyed, no matter who gives them or what the distraction is. That's what this program is all about- distractions, distractions, distractions. Along with overcoming those pesky distractions, we teach you about control- how to achieve it, why it's important to your dog and how to get your dog to want to perform for you. Sit, down, stay, come and heel are reinforced with tons of distractions and distance. This program is much more intense, both physically and mentally, to both you and your dog, but the

results are worth it. (For dogs that have completed Puppy Basics or Basics I, or another similar training program.)

CGC: (6 weeks) Would you like to be able to turn your dog into a therapy dog? Would you like to feel confident that your dog will be a ‘good citizen’ no matter where you both go or who you might meet? Well, that’s the premise behind the **AKC Certificate of Good Citizenship training program**. This program concentrates on the ten exercises required by the AKC for your dog to earn this certification. This certification is also the first step required for any handler seeking to train their dog for therapy work. The ten exercises are real world based and the training is intense. While the work is hard, the rewarding of this certification upon successful completion of the test is an achievement that you’ll be proud of forever. (For dogs that have completed Basics II, or another similar training program)

Real world environments: (6 weeks) This six week program is for the handler and dog that have successfully completed a Basic Intermediate, CGC or other intermediate or advanced level training program. This program is designed to further ‘prove’ your dog to real world environments. Our professional trainers will choose different places to take the class each week so that you and your dog encounter lots of new people, dogs, distractions and noises. You’ll walk through crowded downtown streets, visit parks for off-leash work, go into pet friendly stores, and stroll the avenues! You will be working hard to have your dog perform reliably under new and very distracting conditions, similar to ones that you may encounter if you want to take your dog with you to special events, street fairs, dog parks, etc. (For dogs that have completed Basics intermediate, or another similar training program)

Individual Classes:

Day Care & Training: While in day care, you can take advantage of electing to have your dog trained by our professional trainers who will work “one-on-one” with your dog to correct any social, obedience or behavioral problems that you’re encountering at home.

The program covers basic commands- sit, down, stay, come, heel, proper walking on leash, as well as teaching your dog proper behaviors- politely greeting people, sitting politely for petting, etc, and correcting improper behaviors- jumping, nipping, mouthing, pulling, counter surfing, etc. While your dog is in day care with us, your dog will play with other dogs in our closely monitored play yards and receive the amount of time that is required for individual instruction from our professional trainers in order to teach them what you require for your dog. Once your dog is well trained, you’ll receive two follow up sessions with you and your dog, so that we can teach you how to continue the training that will make your dog a welcome addition to your family.

Personalized Training

We know that your family’s world can be hectic and you may not be able to attend one of our group classes because they just don’t meet your busy schedule. Don’t worry, we understand and we’re here to help. Our professional trainers can custom design an individualized training

program to suit any dog owner's needs. If you would feel more comfortable conducting the training at your home, we can help. Our trainers will come to you at a time and day of your choosing, so that you and your family can all be part of this very important training. Besides, for some dogs, they too feel more comfortable being trained at a place where they feel safe and secure.

You will learn how to use treats, toys, and praise to motivate your dog. And you'll have lots of fun doing it!

If any of these training programs sound like they'd benefit you and your dog, or if you are having problems or issues that you feel are specific to your dog, please call one of our professional trainers with any questions you might have and let us do what we do "**BEST**" *train you and your dog to be the "best" that you both can be!*
